

Visual Identity Cascade

Retail Marketing

Scope of work

Phase 1: Analysis

Phase 2: Strategy

Phase 3: Brand Expression

Jollibee Masterbrand Logo

The new logo comprises of the wordmark “Jollibee”, the “bee icon” and two new “trapezium” shapes

Full color: CMYK / RGB
(refer to page 1.10 for Jollibee Red
gradient specifications)

Single color: Jollibee Red
No gradient fill but solid flat Jollibee Red

Single color: Black

The new VID guide provides the correct Gridline Reference with exact bee head tilt

Key Design Elements

The design elements below are used alone or in combination to represent the Jollibee brand in all communications.

Jollibee logo

Bee icon

Color palette

The wordmark

→ Single color logo

The Bee Face

- Personifies happiness and is used in various applications to evoke the feeling of joy.
- It can be used as stand-alone icon in the tagline or as part of the masterbrand logo
- The peeking bee must follow exact grid line shown below.

Color versions

Full color: Pantone

Full color: CMYK/RGB

Single color: Red

Single color: Black

a

The Jollibee logo without the bee icon should only be used in combination with the Peeking Bee.

Logo clear space and minimum size

- ✓ In order to protect its integrity, the Jollibee masterbrand logo must be kept clear of any other elements. There should be a minimum clear space around the logo.
- ✓ To ensure legibility, a minimum size restriction has been placed on the logo which is not smaller than 20mm in width.

Incorrect use of logo

X Do not stretch logo

X Do not use other typeface

X Do not create reversed white on dark background

X Do not change color in any other way

X Do not tilt any of the elements

X Do not move or resize any of the elements

New Jollibee Typography

Regular for body text

Uses of typography

Headline Fonts

Gator is our communication headline. This is the primary typography used in sub-brands (ie: Yum, Champ, Chickenjoy, Spaghetti, etc). This font type captures Jollibee's fun personality.

Corporate Fonts

Vag rounded is used as corporate typeface ie: statutory signs and other advertising communication

System Fonts

Arial is used for internally produced documents eg. powerpoint, letters, website.

Color palette

Corporate colors

✓ When logo is placed on red background make sure it uses the gradient red so logo stands out. Adding a drop shadow will also help.

✓ Other acceptable colors are black, warm, neutral and light colors.

✓ Avoid placing logo on colors that are unappetizing, dark or patterned background

Free standing store: Open 24 Hours sign

The Open 24 Hours sign has been designed for minimal fuss and optimal clarity and impact. This design for the store exteriors as shown in this section, is consistent to the pylon as shown in section 1 of these guidelines.

Grid

The grid here can be used as reference to create or check the set up production.

Open 24 Hours sign material and finishes

- Material: brushed stainless steel channel lettering light boxes with white acrylic.
- Graphics: printed or vinyl applied sticker.
- Open 24 Hours color: match yellow to PMS 3945C and blue to PMS 2768.
- Color note: the gradients shown in the above visuals are to simulate lighting affect.

Position

The Open 24 Hours sign needs to be located in a clearly visible position, ideally:

- close to entrance (to the left preferably).
- just above eye-level.

PYLON WITH 24 HOUR LOGO

The Drive Thru and Open 24 Hours signs have been designed for minimal fuss and optimal clarity and impact. They can be used individually or together.

Grid

The grid here can be used as reference to create or check the set up production.

Size

For all standard sizes, match the grid to the 60" standard pylon width. See the next page of these guidelines for more details.

Side

The signs are intended to be brushed stainless steel channel box to "die into" the support pole visually. Dimensions should be determined when considering production.

Radii

The corner radii have been carefully considered and documented here. Please adhere to these with absolute accuracy.

Color

The gradients shown in these visuals are intended to simulate Internally Highbox effect. They should be reproduced using flat colors:

- Drive thru color: match PMS 196C
- Open 24 Hours color: match yellow PMS 3945C and blue to PMS 2768.
